Hello motel hotel and pub owner and operators,

Does your Hotel Motel or Pub deserve a makeover that Works?

My hospitality consulting company **Hospitality and More (H&M)** is offering to work with you and take your business to the next level.

“First impressions count – make yours matter”

Your space says everything about your business. Whether you're running a country or suburban motel or a multi-level hotel, a smart, strategic update can turn dated into dynamic—and drive more bookings.

H&M is a full-service hospitality consultancy specialising in refurbishing venues that need a prevailing edge. We've helped transform businesses across Australia—venue by venue, room by room.

Upgrade partially or fully. **Refresh** what you have. **Compete** in the marketplace.

From minor refreshes to full-scale refurbishments—we help transform your venue, your guest experience, and your bottom line.

Are your guest rooms, reception, the dining room, the pool area and the grounds **looking a little tired and outdated?**

At **H&M**, we specialise in working with suburban and regional hospitality businesses, bringing a fresh eye, new ideas and concepts and a new look and feel....regenerating your business, improving customer feedback and improving your revenue.

We deliver quick and clever refurbishments—big or small—that lift your venue's appeal and performance. From reception revamps to full guestroom upgrades, we help turn your space into something your guests want to talk about, return to, and recommend.
